**Subject:** FW: late Friday afternoon UMass update

Hi Tom,

There is a lot of activity out in Amherst and we seem to be running into some communication problems. Can we please set a time on Monday to talk about the information flow and how to best manage? Can you send me some times when you would be available? Thanks and have a good weekend.

Grace

**Subject:** late Friday afternoon UMass update

Hi all,

Mr Nathhorst dropped in to our office without a prior appointment (3:15 p.m.). Suzanne and Carolyn were gone for the day.

He stated he needs to connect with the vaccine manager (Bob Morrison) regarding the storage of the refrigerator and freezer.

Regarding the timeline he related to us that all personal and other items that are to be saved from the vaccine distribution area – need to be removed as soon as feasible so that he can begin demolition there.
